

Incoloy 825 Sheet & Round Bar

Kanakratna Steelage export top quality **Incoloy 825 Round Bar** and Alloy 825 Hex Bars. Incoloy 825 alloy is chromium, nickel, iron based alloy in addition to copper and molybdenum. It is having a greater ability of being both oxidizing and reducing acid and stress corrosion cracking resistance. Also, it is completely resistant to pitting, abrasion and erosion. Our products, known for their superior corrosion and high-temperature resistance, are essential in sectors from marine to oil and gas. Explore how our products provide reliable solutions across various industries.

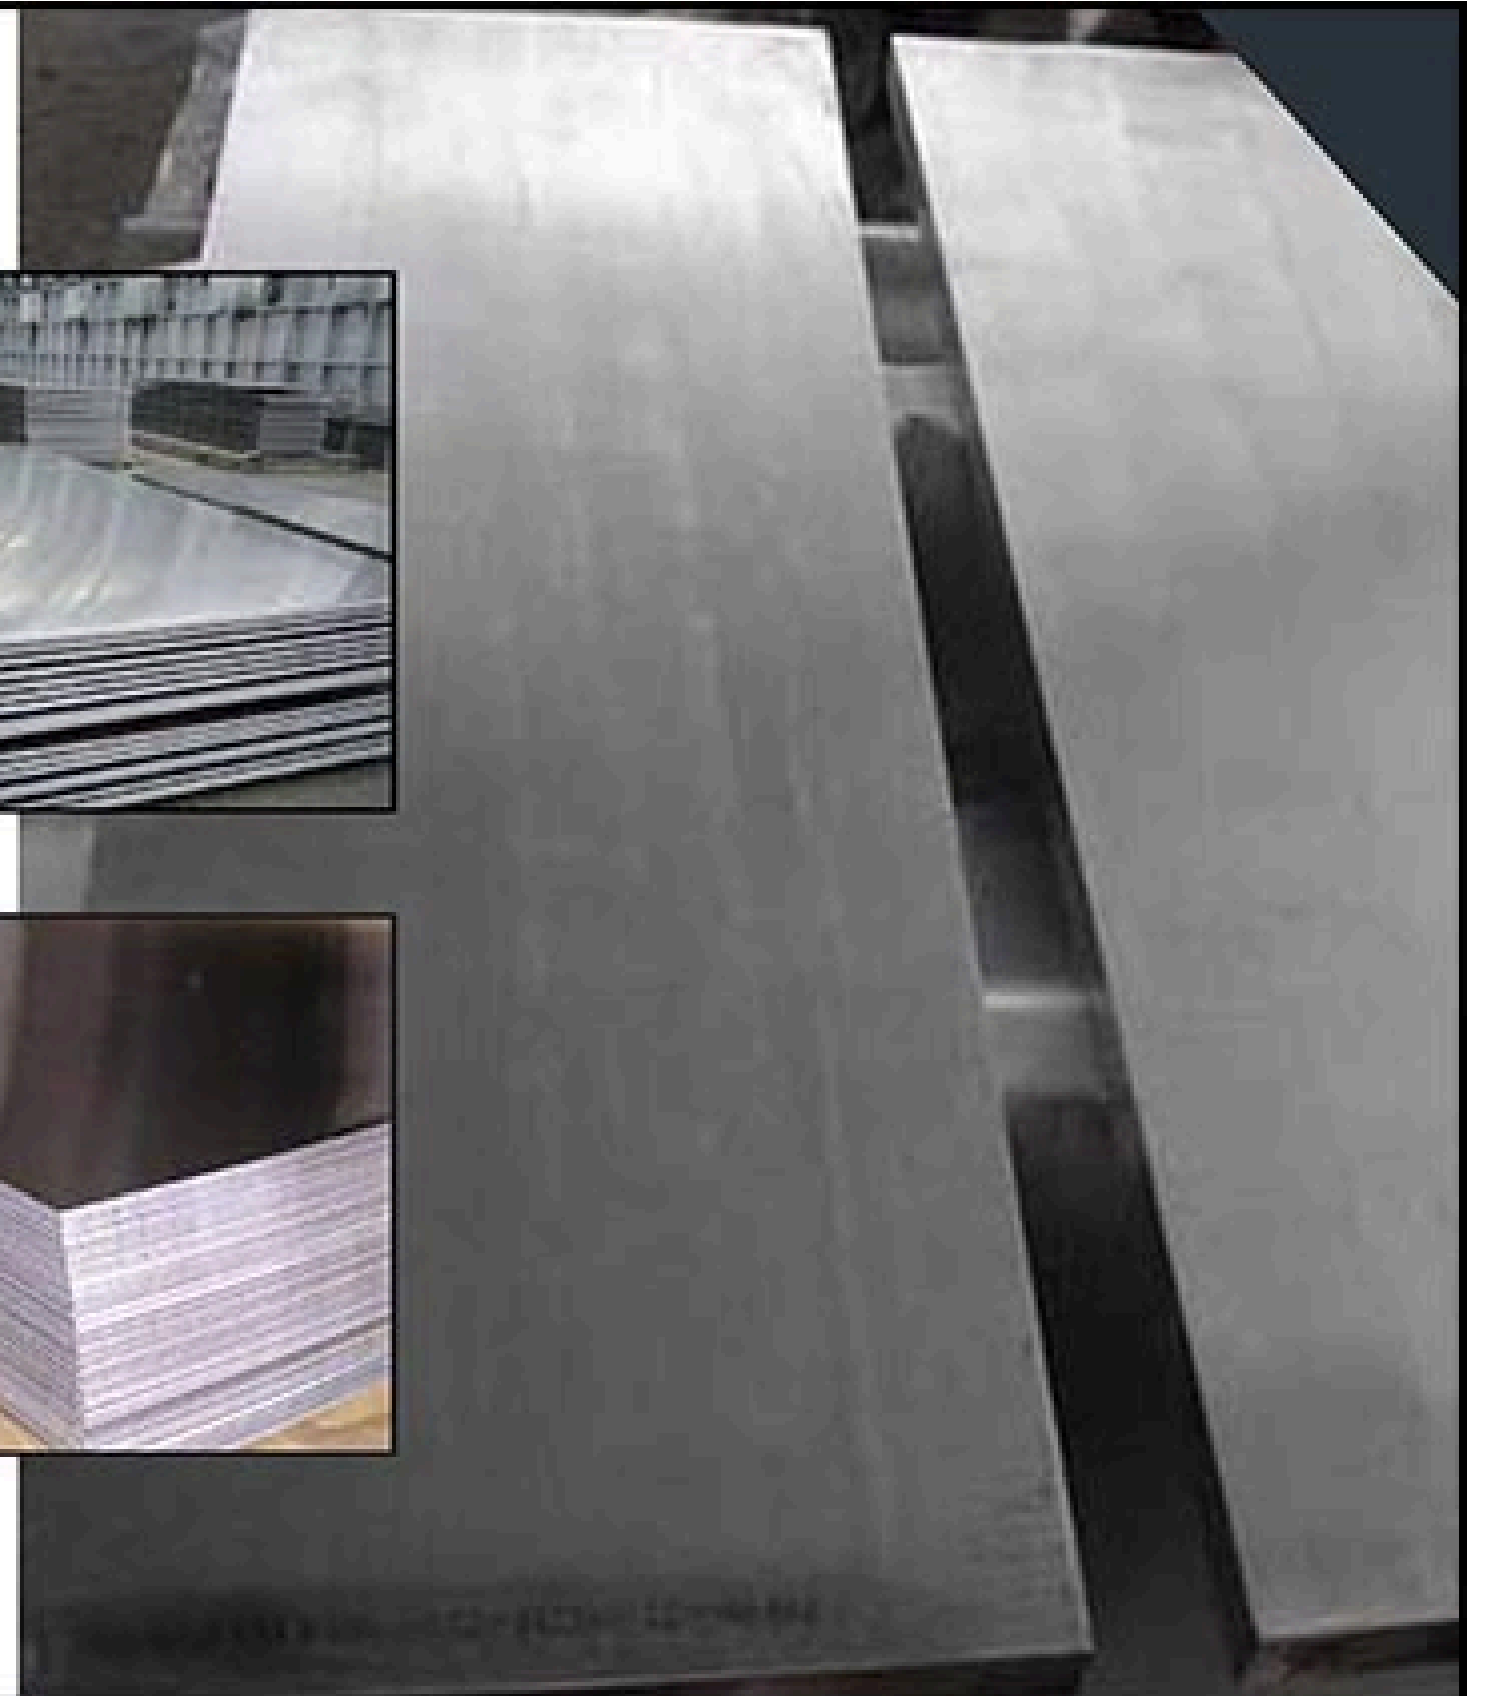

Standards of Inconel 825

Sheet Metal

- ASME SB 424
- DIN 17750
- ISO 6208
- ASME SB 906
- VdTüV 432
- Wnr no. 2.4858
- EN NiCr21Mo
- ASTM B906
