## Tips Before Calling

- **Know Your Vehicle Details** – Helps the team bring the correct battery.
- **Ask About Warranty Terms** – Clarify what's included in the coverage.

- **Confirm Pricing First** – Get a clear estimate before work starts.
  - **Take Care of the Battery** – Turn off lights and electronics when the engine is off, and clean terminals regularly.
- 

## Signs It's Time for a New Battery

Your car battery might be failing if you notice:

- Slow or hard engine start.
- Dim headlights or dashboard lights.
- Electrical problems with windows, radio, or AC.
- Warning light on the dashboard.
- Battery casing is swollen or leaking.
- The battery is older than three years.

Don't ignore these signals—it's better to replace early than to get stranded later.
