## **Tips for Choosing the Right Hardware**

- **Match the style:** Choose hardware that complements your cabinet design flat-panel doors suit edge pulls, while shaker cabinets work well with knobs.
- **Think about proportion:** Follow the 1/3 rule hardware should be roughly one-third the width of a drawer or door.
- **Mix, but don't clash:** Two complementary finishes (like matte black and brass) add interest without overwhelming the space.
- **Test for comfort:** Ergonomics matter, especially for hardware used multiple times a day.

## **Avoid These Common Mistakes**

- Ignoring scale and proportion

- Mixing too many finishes
- Choosing cheap materials that tarnish quickly
- Poor alignment during [installation](#)
- Overlooking functionality for looks
